Proposal For Pueblo Tribe New Mexico

Steele Fire Apparatus appreciates the opportunity to offer this proposal. We are very interested in meeting your needs and requirements for this skid unit. Below are the specifications we offer in this proposal.

Tank

The tank will be a 250 gallon white tank with a 10 gallon foam tank made by Plas-Mac Inc.

The tank will be built of ½” poly and will be baffled to meet NFPA guidelines.

The tank will carry a lifetime warranty.

A 36” pump platform will be at the rear of the tank for the pump and hose reel to mount on.

Pump House

There will be a pump house that will hold the water pump, the foam system and the hose reel.

This pump house will be mounted at the rear of the skid and will be removable if the need arises.

The pump house will give protection to the pump and the foam system.

Pump

The pump will be a Hale HPX200-B18 with the flow rating of (245gpm @ 10psi) or (125gpm, @ 115psi).

The pump will be powered by a Briggs & Stratton 18 hp gas engine.

It will have an exhaust primer built into the motor for drafting up to 12’.

Foam System

STEELE FIRE APPARATUS

Haskell Texas

1-800-687-7639

There will a Scotty Foam System installed.

Discharge Manifold

The discharge manifold will be built of 304 stainless steel and will have the following discharges.

- 2-1" for the 1" x 8' long whip lines
- 1-1" for the Hannay hose reel
- 1-1 ½" discharge to the back of the unit
- 1-2 ½" discharge to the back of the unit

Suction Manifold

The suction manifold will be built of 304 stainless steel with a 3" one quarter turn brass ball valve installed between the tank and the pump.

There will be a 2 ½" one quarter turn ball valve installed with a 2 1/2" female NST connection and plug for drafting.

Hose Reel

A Hannay hose reel # EF4038-17-18 will be mounted above the pump.

The reel will have 100' of 1" Booster hose installed.

Nozzles

There will be three TFT DQS40P nozzles installed on the whip lines and the hose reel.

Paint

The completed unit will be painted to match the departments other equipment.

Freight

Freight to your location included in price.

Delivery

STEELE FIRE APPARATUS

Haskell Texas

1-800-687-7639

The unit will be ready for delivery 30 days after the receipt of tank in shop.
Terms of payment are **NET ON DELIVERY**, unless otherwise stated.
Due to the daily rise of cost in materials this proposal shall expire unless accepted within 25 days after the date set above. This expiration date may be extended, in writing, at the discretion of Steele Fire Apparatus.
